Business Model — Dashcomigo

Revenue Model

Dashcomigo operates on a **SaaS subscription model** with tiered plans and future monetization through financial product distribution.

Subscription Tiers

Free Plan

Price: R\$0/month

Who it's for: New entrepreneurs testing the platform, or those with very basic needs.

Includes:

- Dashboard with basic financial overview
- Manual transaction entry (limited)
- Basic cash flow view
- Limited payables and receivables
- MEI DAS simulator
- Up to 1 bank connection (view only)

Purpose: Customer acquisition funnel. Convert free users to paid through value demonstration.

PRO Plan

Price: R\$49/month (or R\$490/year — 2 months free)

Who it's for: Active MEIs and small business owners managing their finances seriously.

Includes everything in Free, plus:

- Unlimited transactions
- Full Open Finance integration (automatic bank sync)
- Real investment portfolio tracking
- Advanced financial reports (3/6/12 months)
- P&L analysis and cash flow forecast
- CDI benchmark comparison in reports

- Export to Excel and PDF
- Client and supplier management
- Proposals module
- Smart alerts and notifications
- Priority support

Target conversion rate: 15–25% of active free users

PRO+ Plan *(Future — 2027)*

Price: R\$99/month

Who it's for: Entrepreneurs with more complex needs or multiple businesses.

Includes everything in PRO, plus:

- Multi-entity management (multiple businesses, one account)
- AI financial insights and recommendations
- Advanced cash flow prediction (90 days)
- Investment rebalancing suggestions
- Accountant collaboration mode (read-only access for your accountant)
- Custom report templates
- API access for integrations
- Dedicated account manager

Unit Economics (Targets)

Metric	Target
CAC (Customer Acquisition Cost)	R\$80–120
LTV (Lifetime Value) — PRO	R\$588 (avg 12 months at R\$49)
LTV/CAC Ratio	>5x
Monthly Churn Target	<3%
Gross Margin	>80% (SaaS)

Future Monetization Streams

1. Financial Product Marketplace (2027+)

Model: Revenue sharing / referral commission

When the platform surfaces relevant financial products — credit, investments, insurance — and a user converts, Dashcomigo earns a commission.

Examples:

- Recommending a CDB offer: 0.3–0.5% of invested amount
- Business credit referral: 1–2% of credit amount
- Insurance policy sale: 15–25% of premium

Estimated contribution: 20–30% of total revenue by 2028

2. B2B API — White Label (2027+)

Model: Monthly API subscription

Accountants, financial advisors, and other fintechs can access Dashcomigo's data aggregation and reporting infrastructure.

Pricing: R\$299–999/month per B2B account (depending on volume)

3. Data Intelligence Services (2028+)

Model: Aggregated insights subscriptions

With user consent and full LGPD compliance, anonymized and aggregated financial behavior data can be valuable to:

- Financial institutions (credit risk models)
- Government agencies (economic health indicators)
- Research institutions

This is a long-term, high-margin opportunity.

4. Premium Add-ons (2027+)

- AI advisor sessions: R\$19/month per add-on
- Additional bank connections beyond plan limit
- Custom report branding

Go-To-Market Strategy

Phase 1: Direct Digital (Current)

- SEO-focused content marketing targeting MEI financial management queries
- Social media (Instagram, YouTube) with financial education content
- Google Ads targeting MEI-related keywords
- WhatsApp-based onboarding and support

Phase 2: Partnerships (2027)

- Accounting firms — refer clients to Dashcomigo (affiliate program)
- MEI service providers (DAS emitters, SEBRAE partners)
- Fintech partnerships (embedded in other products)

Phase 3: Community & Virality (2027+)

- Referral program ("Invite a fellow MEI, get 1 month free")
- MEI communities on WhatsApp and Telegram
- Content creator partnerships (financial education influencers)

Financial Projections

Conservative Scenario

Period	Paid Users	MRR	ARR
Q4 2026	100	R\$4,900	R\$58,800
Q2 2027	500	R\$24,500	R\$294,000
Q4 2027	1,500	R\$73,500	R\$882,000
Q2 2028	3,000	R\$147,000	R\$1,764,000

Optimistic Scenario (with partnerships + B2B)

Period	Paid Users	MRR	ARR
Q4 2026	200	R\$9,800	R\$117,600
Q2 2027	1,200	R\$58,800	R\$705,600
Q4 2027	4,000	R\$196,000	R\$2,352,000
Q2 2028	10,000	R\$490,000	R\$5,880,000

Projections include product marketplace commissions from Year 3 onward.

Competitive Landscape

Competitor	Focus	Price	Open Finance	Investment Tracking
Conta Azul	SMB accounting	R\$199+/mo	Partial	No
Nibo	Accounting	R\$149+/mo	No	No
Granatum	Cash flow	R\$99+/mo	No	No
Mobills	Personal finance	R\$19/mo	Yes	Limited
Organizze	Personal finance	R\$15/mo	No	No
Dashcomigo	MEI/SMB all-in-one	R\$49/mo	Yes (full)	Yes (full)

Key differentiator: Dashcomigo is the only platform combining Open Finance data, investment tracking, and business financial management at a price accessible to MEIs.
