Financial Intelligence for Brazilian Entrepreneurs

EXECUTIVE SUMMARY

Dashcomigo is a SaaS financial management platform built for Brazil's 15.4 million MEIs (Microempreendedores Individuais) and small business owners.

The platform connects to users' bank accounts via Brazil's Open Finance infrastructure, automatically imports transactions and investment portfolios, and delivers the financial clarity that entrepreneurs need to make better decisions — every day.

Key facts:

- Platform is live and operational
- Open Finance integration active via Pluggy (200+ Brazilian institutions)
- Real investment portfolio tracking (8 asset classes)
- Full financial reporting suite
- PRO subscription at R\$49/month

We are seeking pre-seed investment to accelerate growth, launch mobile, and build the AI intelligence layer.

SECTION 1: THE PROBLEM

Financial Blindness Is Killing Brazilian Businesses

Brazil registers **15.4 million MEIs** — the fastest-growing entrepreneurial segment in Latin America. Yet the vast majority run their finances without any real visibility:

- Transactions scattered across personal and business accounts
- Investment portfolios tracked manually (or not at all)
- Cash flow managed by "feeling" rather than data
- Tax obligations discovered last-minute

- No tool built specifically for their reality and price point

The consequence is severe:

60% of small businesses in Brazil fail within 5 years. Financial disorganization is the #1 cited cause.

What They Have Today

Tool	Problem
Spreadsheets	Manual, always outdated, error-prone
Personal bank app	Shows one account, no business context
Generic finance apps	Built for individuals, not entrepreneurs
Enterprise accounting software	Too expensive (R\$150–500+/month), too complex
Nothing	The most common "solution"

There is no platform built specifically for the MEI entrepreneur that combines real banking data, investment tracking, and business financial management at an accessible price.

SECTION 2: THE SOLUTION

Dashcomigo — The Financial OS for Brazilian Entrepreneurs

Dashcomigo gives every MEI the financial tools previously available only to companies with a full finance team:

Automatic — Connects to banks via Open Finance. No manual entry required.

Complete — Cash flow, payables, receivables, investments, taxes, reports — all in one place.

Intelligent — Classifies transactions, forecasts cash flow, tracks portfolio performance vs. CDI.

Accessible — R\$49/month. Less than a business lunch.

SECTION 3: THE PRODUCT

What Dashcomigo Does

Core Modules (Live)

Dashboard Real-time command center showing cash balance, receivables, payables, and Open Finance status. Smart alerts for overdue items and cash flow risks.

Cash Flow Automatic bank transaction import via Open Finance. Intelligent classification of income vs. expenses, personal vs. business. Monthly evolution with trend analysis.

Accounts Payable & Receivable Track bills, client invoices, and obligations. Status management (pending / paid / overdue). Due date alerts.

Investment Portfolio Real investment data imported directly from banks via Open Finance. Tracks: Renda Fixa, Ações, ETFs, Fundos de Investimento, Previdência, FIs, COEs, Criptomoedas. Shows total invested, current value, return %, and CDI comparison.

Financial Reports (PRO) Advanced analysis for 3, 6, or 12-month periods. Revenue vs. expense charts. Cash flow forecast. Portfolio evolution vs. CDI benchmark. Export to Excel and PDF.

MEI Tax (DAS) Revenue tracking vs. MEI annual limit. DAS simulation and due date reminders.

The Open Finance Advantage

When a user connects their bank through Dashcomigo:

```
User clicks "Connect Bank"
      ↓
Pluggy secure widget (2 minutes)
      ↓
Automatic data import begins:
• All transactions (6+ months)
• Full investment portfolio
• Account balances
      ↓
Dashboard updates in real time
      ↓
Background sync every 6 hours
— forever, automatically —
```

No spreadsheets. No manual entry. No incomplete data.

SECTION 4: OPEN FINANCE STRATEGY

Why Open Finance Changes Everything

Brazil's Open Finance framework, mandated by the Central Bank, is now fully operational with 40M+ active consents.

For Dashcomigo, Open Finance is not a feature — it is the platform's core infrastructure layer.

The Transformation

Without Open Finance	With Open Finance
User must enter every transaction	Automatic import from all connected banks
Data is always incomplete	Data is always complete and accurate
Investment tracking is manual	Portfolio imported directly from banks
Reports based on partial info	Reports based on full financial picture
Users abandon the app	Users rely on the app as source of truth

Supported Institutions

Pluggy connects to **200+ Brazilian financial institutions** including Itaú, Bradesco, Banco do Brasil, Caixa, Nubank, Inter, BTG, XP, and all major brokers.

Future Open Finance Capabilities

2026: Real-time webhooks, multi-bank aggregation, payment initiation **2027:** AI-powered transaction classification, predictive alerts **2028:** Embedded financial product marketplace via Open Finance data

SECTION 5: MARKET OPPORTUNITY

A Massive, Underserved Market

The Numbers

Segment	Size
Registered MEIs in Brazil	15.4 million
Small businesses (ME + EPP)	21 million total
MEIs using digital financial tools	~3 million
MEIs willing to pay R\$49/month for better control	Estimated 10–15%

Market Size

- **TAM:** R\$4.2 billion/year (all financial management software for SMBs in Brazil)
- **SAM:** R\$1.76 billion/year (digitally active MEIs + small businesses)
- **SOM (5-year):** R\$59M ARR (10,000 paid users at R\$49/month + marketplace)

Growth Tailwinds

1. **Open Finance adoption** growing 40% year-over-year
2. **MEI formalization** increasing — 1.5M new MEIs registered in 2024 alone
3. **Smartphone penetration** reaching 90%+ in Brazil
4. **Financial literacy** increasing with government and fintech education programs
5. **Remote work normalization** creating more solo entrepreneurs

SECTION 6: BUSINESS MODEL

How Dashcomigo Makes Money

Primary: SaaS Subscriptions

Plan	Price	Features
Free	R\$0	Basic dashboard, limited features
PRO	R\$49/month	Full platform, Open Finance, reports
PRO+ (2027)	R\$99/month	AI insights, multi-entity, API access

Unit Economics:

- Customer Acquisition Cost: R\$80–120 (target)
- Average LTV (PRO): R\$588 (12 months)
- LTV/CAC Ratio: >5x
- Target Gross Margin: >80%

Future: Financial Product Marketplace (2027+)

When Dashcomigo recommends and connects users to financial products:

- Investment products: 0.3–0.5% of invested amount
- Business credit referrals: 1–2% commission
- Insurance policies: 15–25% of first-year premium

Future: B2B API (2027+)

White-label access for accountants and financial advisors: R\$299–999/month

Revenue Projections

Period	Paid Users	MRR	ARR
Q4 2026	100	R\$4,900	R\$58,800
Q2 2027	500	R\$24,500	R\$294,000
Q4 2027	1,500	R\$73,500	R\$882,000
Q2 2028	3,000	R\$147,000	R\$1,764,000
2028 + marketplace	10,000	R\$600,000+	R\$7.2M+

SECTION 7: ROADMAP

Building the Future of MEI Finance

Now — Foundation (Live)

- ✔ Core platform (dashboard, cash flow, payables, receivables)
- ✔ Open Finance via Pluggy (200+ institutions)
- ✔ Real investment portfolio import and tracking
- ✔ Advanced financial reports with investment analysis
- ✔ PRO subscription plan

2026 — Intelligence

- Smart alerts and predictive cash flow warnings
- Multi-bank aggregation
- Improved AI transaction classification
- Investment rebalancing suggestions
- Scheduled report delivery

2027 — Platform

- Mobile apps (iOS + Android)

- AI financial advisor layer
- B2B white-label API for accountants
- NF-e integration
- Financial product marketplace (credit, insurance)

2028+ — Ecosystem

- Conversational AI financial advisor
- Credit score simulation
- Multi-entity management
- Data intelligence services (LGPD compliant)

SECTION 8: COMPETITIVE LANDSCAPE

Why Dashcomigo Wins

	Conta Azul	Granatum	Mobills	
Price	R\$199+/mo	R\$99+/mo	R\$19/mo	R\$49/mo
Built for MEIs	✗ SMB	✗ Generic	✗ Personal	✓ Yes
Open Finance	Partial	✗ No	✓ Yes	✓ Full
Investment tracking	✗ No	✗ No	Limited	✓ Full
Business reports	✓ Yes	✓ Yes	✗ No	✓ Yes
Cash flow + investments	✗	✗	✗	✓

Dashcomigo is the only platform that combines:

1. Open Finance automatic data import
2. Real investment portfolio tracking
3. Business financial management (cash flow, payables, receivables)
4. At a price accessible to MEIs (R\$49/month)

No direct competitor exists in this exact space.

SECTION 9: THE TEAM

Founded by Someone Who Understands Both Worlds

Leonardo Teixeira — Founder & CEO

Background in financial markets and investment management through Alto Valor Investimentos. Deep expertise in financial products, investment strategies, and the Brazilian financial regulatory landscape.

Built Dashcomigo from direct observation of a real market gap: entrepreneurs who desperately need financial clarity but have no adequate tool built for their reality.

Expanding team with funding: CTO, Growth Lead, Customer Success.

SECTION 10: THE ASK

Pre-Seed Investment

Seeking: R\$[X] pre-seed round

Use of Funds:

Area	Allocation	Purpose
Product & Engineering	50%	Mobile app, AI layer, B2B API, infrastructure
Growth & Marketing	30%	Digital acquisition, content, partnerships
Operations	15%	Team building, customer success
Legal & Compliance	5%	LGPD, data protection, Open Finance compliance

Milestones with Funding:

- 6 months: 500 paid users, mobile app beta
- 12 months: 2,000 paid users, AI alerts live
- 18 months: 5,000 paid users, marketplace MVP
- 24 months: 10,000 paid users, R\$600K MRR

SECTION 11: VISION

The Future We Are Building

In ten years, every Brazilian MEI will use Dashcomigo every single day.

Not because they have to — but because the alternative (financial blindness) is simply unacceptable once you've experienced real clarity.

Dashcomigo will be:

- The platform that predicts your cash crisis before it happens
- The advisor that tells you exactly how much you can invest this month
- The tool that files your DAS and suggests your tax regime automatically
- The intelligence layer between the entrepreneur and the financial system

We are not building a dashboard.

We are building financial equity for Brazil's 15 million entrepreneurs.
